

How to Use NotebookLM by Google

With NotebookLM, what could you ship today if your tabs became finished videos and decks?

Open NotebookLM at this link: <https://notebooklm.google.com/>

Why NotebookLM and core pieces

Too many tabs

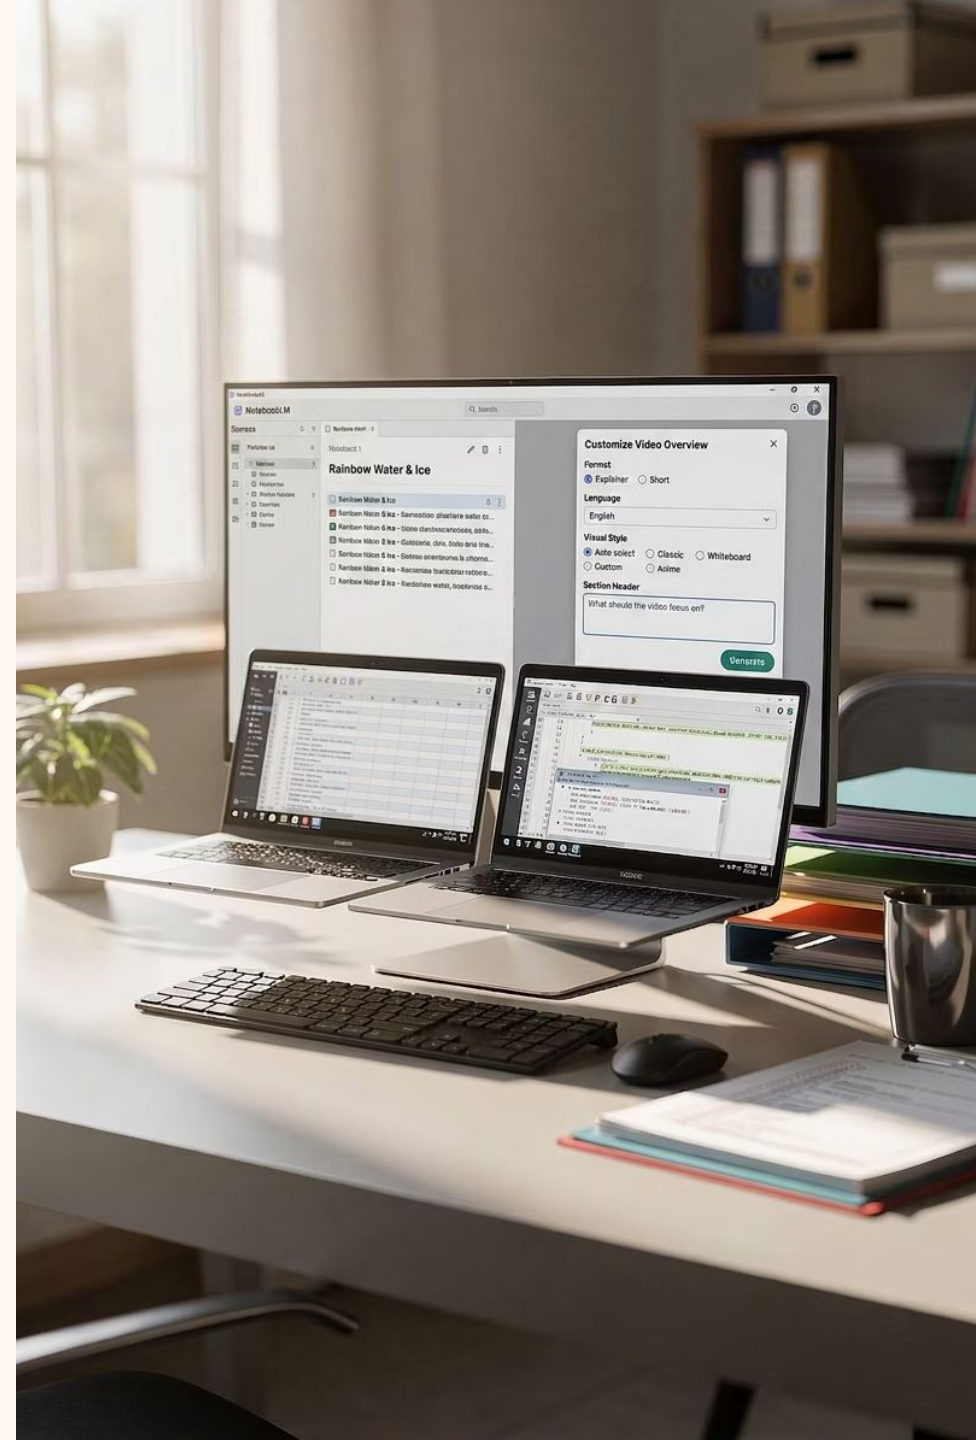

Notebook organizes sources

Source panel: select

Center panel: chat, Studio

Citations link passages

Ship grounded artifacts

Create your first video overview

01

Pick a website page

02

Add URL as source

03

Open Studio, click Video Overview

04

The video will generate; preview it; save it

05

Success: You did it! Does it show a clear message?

06

Double Success: Does it show one cited fact?

👉 Let's take your knowledge to the next level. Watch this video before diving into the rest of the course:

[Watch on YouTube](#)

Momentum: what comes next

1

You built: website video

2

Next: Audio Overview

3

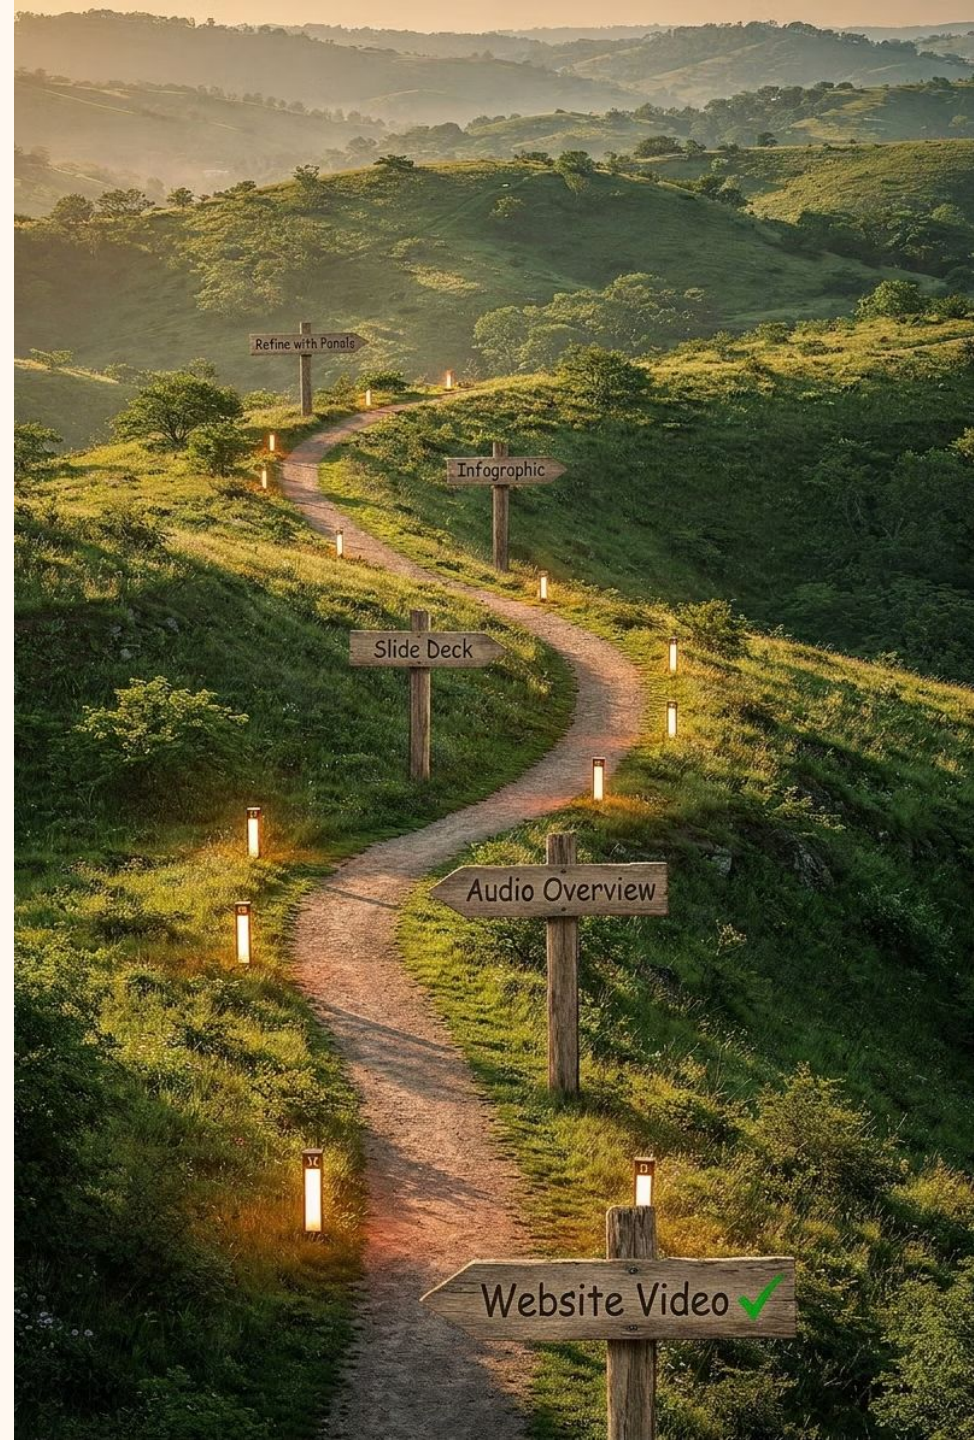

Next: Slide Deck

4

Next: Infographic

5

Then: refine with panels

Guardrails you need now

Respect rights and terms

Avoid sensitive sharing

Public vs Restricted basics

Chat View hides, not revokes

Verify facts via citations

The Rise of AI: 2022 to Today

Pre-share quality checklist

Clear audience, purpose

Claims have citations

Clean titles, readable

Concise takeaways

Rights confirmed

Practice: podcast, deck, infographic

01

Reuse the website source

02

Generate Audio Overview

03

Generate Slide Deck

04

Generate Infographic

05

Refine one by sources

06

Success: citations correct

Remaining Studio tools

Flashcards

Study checks

Quizzes

Quick recall

Mind Map

Relationships

Study Guide

Key points

Use selected sources only

A man in a dark suit is seen from the side, sitting at a desk and working on a laptop. The laptop screen displays a large, glowing padlock icon, suggesting a security or access theme. The background is dimly lit, showing a bookshelf and a lamp.

Sharing options and limits

Public: anyone with link

Owners, editors manage access

Changes show to viewers

Chat View: hides, not revokes

Restricted: invited access

Featured: curated examples

Organize and troubleshoot

01

Name notebooks clearly

02

Version saved artifacts

03

Match sources to artifact

04

If drift: reduce sources

05

Verify every citation

06

Edit or remove issues

Practice: one more tool, share

01

Build Flashcards or Mind Map

02

Use selected sources only

03

Turn on Chat View

04

Copy and preview link

05

Success: share fits audience

Adopt NotebookLM in work

Choose one recurring project

Standardize source list

Define default artifact set

Set Restricted, Chat View

Add pre-share check

Quick readiness check

Pick best artifact

Fix noisy output

Verify claim via citation

Choose correct sharing

Course Wrap-Up and Thank You

You can now apply the course's core skill in a real work situation. Thank you for completing the course.
